

Building confidence, independence and brighter futures

Supporting adults who need support to develop practical, digital and workplace skills in a friendly, inclusive learning environment

We help people build key skills for life, work and independence

Saffron Design & Create (S-DAC) provides inclusive, practical training designed to help adults build confidence, develop valuable skills and prepare for greater independence and employment opportunities.

Learning is hands-on, supportive and tailored to each individual, with a strong focus on developing real-world skills that can be applied in everyday life and the workplace.
